The first time you want to download several files at once, your browser may not allow you to do so

EDGE

To do this, open a new tab in your browser and go to Settings / Cookies and Site Permissions / Automatic Downloads

You can copy and paste the link below directly into the address bar of your new tab: edge://settings/content/automaticDownloads

Settings	Site permissions / Automatic downloads	
Q Search settings		
Profiles	Ask when a site tries to download files automatically after the first file (recommended)	•

. Phone and Other Devices		
ℜ Accessibility		
About Microsoft Edge		

Tick : "Ask when a site tries to download files automatically after the first file" (or authorise https://app.skeem.io)

Close the tab to save your choice

You're all set!

This process needs to be performed only once.

CHROME

To do this, open a new tab in your browser and go to Settings / Privacy and Security / Site settings / Pop-ups and redirects

You can copy and paste the link below directly into the address bar of your new tab:

chrome://settings/content/popups

Q Search

Sites might send pop-ups to show ads, or use redirects to lead you to websites that you may not want to visit

Default behaviour

Sites automatically follow this setting when you visit them

Sites can send pop-ups and use redirects

O Non't allow sites to send pop-ups or use redirects

Tick : "Sites can send pop-ups and use redirects"

(or add https://app.skeem.io as an exception in "Allowed to send pop-ups and use redirects")

Close the tab to save your choice

You're all set!

This process needs to be performed only once.

FIREFOX

To do this, open a new tab in your browser and go to Settings / Privacy & Security

You can copy and paste the link below directly into the address bar of your new tab: about:preferences#privacy

Scroll down to the "Permissions" section

Untick : "Block pop-up windows" (or manage exceptions)

Close the tab to save your choice

You're all set!

This process needs to be performed only once
